OPTION #2

DataGlacier — Virtual Data Analytics Internship

End-to-End Project

Beginner Friendly

100% Free + Certificate

OVERVIEW & WHAT YOU'LL DO

- **Core Focus:** Gain end-to-end experience working on a complete life-cycle data project.
- **Key Deliverables:** Data cleaning & preprocessing, exploratory data analysis (EDA), dashboard creation, and presenting actionable insights.
- **Environment:** Mentored structure where you work like an actual remote data analyst team.
- **Outcome:** Verified completion certificate + an impressive portfolio project for your resume.

HOW TO APPLY & STEPS

- Go to DataGlacier's website and navigate to the *Internships / Programs* tab.
- Fill out the application form selecting the "Data Analytics" track.
- Join their Discord/Slack workspace upon acceptance and get assigned to your project mentor.

OPTION #3 (BEST FOR COLLEGE STUDENTS)

360DigiTMG — 45-Day Free Internship Program

20-Day Free Training

25-Day Industry Project

Ideal for Students

OVERVIEW & PROGRAM STRUCTURE

- **Phase 1 (First 20 Days):** Comprehensive foundational training covering key analytics tools and techniques from scratch.
- **Phase 2 (Next 25 Days):** Applied industry-level project execution based on real client datasets.
- **Why It's Great:** No prior experience required—you learn first, then execute.

HOW TO APPLY & STEPS

- Visit the official 360DigiTMG portal and check for active free student internship batches.
- Register with your college email ID or personal credentials.
- Attend the live/recorded training sessions for 20 days and clear the project eligibility check.

Official Website Link:

How to Maximise These Internships for Your Resume:

- **Don't just list the certificate:** Add a bulleted section under "Experience" detailing the exact tools used (e.g., *"Cleaned 10k+ rows using Python Pandas, designed Interactive Power BI Dashboard"*).
- **Upload to GitHub / Portfolio:** Always push your cleaned code, SQL queries, and dashboard screenshots to GitHub or Notion to show proof of work.
- **Post on LinkedIn:** Share a weekly update or final presentation video on LinkedIn tagging the organization for extra visibility.
