Forward Deployed Engineer

* HIGH DEMAND

The bridge between product and enterprise clients

What is a Forward Deployed Engineer? A Forward Deployed Engineer (FDE) works at the intersection of software engineering and customer success. They embed with enterprise clients to build custom integrations, solve real-world technical problems, and ensure the product delivers measurable value. Palantir pioneered this role — now it's exploding across AI-first companies.

EDUCATION PATH	MUST-HAVE SKILLS
BTech / BE (CS or IT) Preferred but not mandatory — strongest base	> Python / Java / JavaScript — core engineering
BCA / MCA Solid alternative with strong programming foundation	> API Integration: REST & GraphQL
BSc Computer Science Valid for product-focused FDE roles	> SQL & Data Pipelines
MBA Tech Useful for senior / client-facing FDE positions	> Cloud basics: AWS / GCP / Azure
	> Customer-facing communication & problem-solving
	> Familiarity with LLMs & AI product stacks
	> Rapid prototyping & debugging in client environments

CERTIFICATIONS & COURSES

+ AWS Certified Developer / Solutions Architect	+ LangChain / LlamaIndex projects on GitHub
+ Google Cloud Professional Data Engineer	+ Palantir AIP Bootcamp (free online)
+ Databricks Data Engineer Associate	

ENTRY-LEVEL JOB ROLES (Freshers / 0-2 yrs)	Salary	Where to Apply
Solutions Engineer (Fresher)	Rs.6 - 10 LPA	Salesforce, Freshworks, Zoho
Technical Support Engineer	Rs.4 - 8 LPA	Oracle, SAP, HCL, Wipro
Implementation Consultant	Rs.5 - 9 LPA	Darwinbox, Chargebee, LeadSquared
Associate Pre-Sales Engineer	Rs.6 - 12 LPA	IBM, Infosys, TCS Digital

Top Companies — India

Top Companies — Global

GTM Engineer

Where sales meets code — the ultimate growth weapon

* EXPLOSIVE GROWTH

What is a GTM Engineer? A Go-To-Market (GTM) Engineer sits between sales, marketing, and engineering. They build automation tools, AI-powered outreach systems, lead-enrichment pipelines, and revenue-operations workflows. This is the fastest-growing role in SaaS and AI-first startups — and most Indian professionals have never heard of it.

EDUCATION PATH	MUST-HAVE SKILLS
BTech / BCA / BSc CS Coding foundation essential — any tech degree works	> Python scripting for automation & data pulls > CRM: HubSpot, Salesforce, Pipedrive > Clay, Apollo, Instantly, Lemlist (outreach automation) > Zapier / Make.com / n8n (workflow automation) > SQL for data extraction and reporting > Copywriting + Prompt Engineering for outreach > LinkedIn Sales Navigator & lead enrichment > Webhook integrations & API connections
BBA / MBA Marketing Strong combo paired with technical upskilling	
B.Com + CRM Certs Works well for RevOps-focused GTM roles	
Any Degree + Portfolio Strong project proof beats formal degree here	

CERTIFICATIONS & COURSES	
+ HubSpot CRM Certification (free)	+ Google Analytics GA4 Certification
+ Salesforce Admin Certification	+ Zapier / Make Automation Certification
+ Clay.com GTM Engineer Course	

ENTRY-LEVEL JOB ROLES (Freshers / 0-2 yrs)	Salary	Where to Apply
Sales Development Rep (SDR)	Rs.4 - 8 LPA	Razorpay, BrowserStack, Postman
Marketing Automation Analyst	Rs.4 - 7 LPA	MoEngage, CleverTap, WebEngage
RevOps Analyst (Entry)	Rs.5 - 9 LPA	Chargebee, Freshworks, Zoho
Growth Hacker / Intern GTM Eng.	Rs.3 - 6 LPA	D2C startups, SaaS companies

Top Companies — India	Top Companies — Global	Senior Salary Range
Razorpay LeadSquared MoEngage CleverTap Chargebee Postman BrowserStack Groww	Salesforce HubSpot Gong Outreach.io Apollo.io Clay OpenAI (GTM roles)	Rs.15 - 35 LPA India \$90,000 - \$160,000 / yr Global / Remote

The engineer who makes entire workflows run on autopilot

What is a AI Automation Architect? An AI Automation Architect designs and builds end-to-end automated systems that replace manual business processes using AI. They map data flows, decide where AI decisions happen, and wire multiple tools together. From HR automation to finance reconciliation — this role touches every department in every large company.

EDUCATION PATH	MUST-HAVE SKILLS
BTech / BE (CS / IT) Strongest foundation for architecture-level thinking	> n8n, Make.com, Zapier — workflow automation platforms
MCA / M.Tech Preferred for senior architect positions	> Python: automation scripting & API calls
BSc IT + Cloud Certs Valid entry with a strong project portfolio	> LLM APIs: OpenAI, Claude, Gemini integration
MBA Tech / PGDM For business-side architecture + leadership tracks	> Database design: Postgres, Airtable, Notion DB
	> Process mapping & BPM methodologies
	> RPA tools: UiPath, Automation Anywhere basics
	> Cloud Functions: AWS Lambda / GCP Cloud Run
	> System architecture documentation

CERTIFICATIONS & COURSES

+ UiPath Certified RPA Developer	+ Microsoft Power Automate Certification
+ Automation Anywhere Advanced RPA Professional	+ n8n Certified Expert + Portfolio Projects
+ AWS Solutions Architect Associate	

ENTRY-LEVEL JOB ROLES (Freshers / 0-2 yrs)	Salary	Where to Apply
RPA Developer (Junior)	Rs.5 - 10 LPA	TCS, Infosys, Wipro, HCL
Automation Test Engineer	Rs.4 - 8 LPA	Capgemini, Mphasis, Cognizant
Business Process Analyst	Rs.4 - 9 LPA	IBM India, Accenture, EY
Power Automate Developer (Jr.)	Rs.5 - 9 LPA	Microsoft partners, IT services

Top Companies — India	Top Companies — Global	Senior Salary Range
TCS AI CoE Infosys AI Labs Wipro HCL Technologies Mphasis IBM India Accenture India Capgemini	Accenture Deloitte IBM McKinsey Digital PwC Microsoft UiPath ServiceNow	Rs.20 - 55 LPA India \$130,000 - \$220,000 / yr Global / Remote

What is a AI Workflow Designer? An AI Workflow Designer creates intelligent automated workflows using no-code and low-code tools — combining AI models, databases, APIs, and business logic without heavy programming. This role is perfect for people at the intersection of operations, product, and AI — a massive opportunity for non-engineers to break into AI roles.

EDUCATION PATH

Any Bachelor's Degree

Literally any field — most degree-agnostic AI role

BBA / B.Com / BA

Business understanding is a real advantage here

BTech / BCA

Speeds up learning curve but not required

Diploma + Strong Portfolio

Portfolio beats degree — build and ship things

MUST-HAVE SKILLS

- > Zapier, Make.com, n8n — workflow automation mastery
- > Airtable, Notion, Google Sheets — database logic
- > ChatGPT / Claude / Gemini prompt chaining
- > Voiceflow / Botpress — conversational AI builders
- > Bubble / Glide — no-code app integration
- > Webhook setup & API basics (no coding needed)
- > Process documentation & SOP writing
- > Client requirement gathering & solution design

CERTIFICATIONS & COURSES

+ Zapier Expert Certification (free)

+ Google Workspace Automation — Coursera

+ Make.com Partner Certification

+ Voiceflow Bot Builder Certification

+ Airtable Builder Certification

ENTRY-LEVEL JOB ROLES (Freshers / 0-2 yrs)	Salary	Where to Apply
No-Code Developer (Fresher)	Rs.3 - 6 LPA	Startups, agencies, freelance
Operations Automation Analyst	Rs.4 - 7 LPA	EdTech, fintech, D2C brands
Chatbot / AI Bot Builder	Rs.3 - 7 LPA	BPO, customer service firms
Junior Automation Consultant	Rs.4 - 8 LPA	Digital marketing agencies

Top Companies — India	Top Companies — Global	Senior Salary Range
D2C startups EdTech companies Fintech startups Marketing agencies Consulting firms SaaS companies	Zapier (internal) Monday.com Notion Remote.com Loom Any AI-first startup	Rs.8 - 25 LPA India \$60,000 - \$120,000 / yr Global / Remote

What is a Prompt Engineer? A Prompt Engineer crafts, optimizes, and tests prompts that make AI models perform at their best. Beyond writing instructions — it involves understanding model behavior, chaining prompts, building evaluation frameworks, and creating reusable prompt libraries for products, marketing, and operations. Early-career role with a very high ceiling.

EDUCATION PATH	MUST-HAVE SKILLS
Any Degree — CS preferred Linguistics, psychology, CS all work here	> Deep knowledge of LLMs: GPT-4, Claude, Gemini, Llama
BTech / BSc CS Fastest path to technical Prompt Engineering roles	> Chain-of-thought, few-shot, zero-shot techniques
BA English / Linguistics Unique edge for content-focused prompt roles	> System prompt architecture & persona design
MBA + AI Upskilling For prompt strategy and AI product management tracks	> Prompt evaluation & A/B testing frameworks
	> JSON / structured output prompting
	> RAG (Retrieval Augmented Generation) basics
	> LangChain / LlamaIndex fundamentals
	> Python for prompt automation & batch testing

CERTIFICATIONS & COURSES

+ Anthropic Prompt Engineering Course (free)	+ OpenAI Cookbook — hands-on GitHub portfolio
+ DeepLearning.AI — ChatGPT Prompt Eng. for Developers	+ Hugging Face NLP Course (free)
+ Google — Prompting Essentials (Coursera)	

ENTRY-LEVEL JOB ROLES (Freshers / 0-2 yrs)	Salary	Where to Apply
AI Content Specialist	Rs.4 - 8 LPA	SaaS tools, content agencies
Junior Prompt Engineer	Rs.5 - 10 LPA	AI product startups, Scale AI
AI QA / Evaluation Analyst	Rs.4 - 9 LPA	Scale AI, Surge, Outlier AI
LLM Data Annotator / RLHF Trainer	Rs.3 - 7 LPA	Appen, Telus Int'l, iMerit

AI Agent Developer

* HIGHEST CEILING

Building autonomous AI systems that think, act, and execute

What is a AI Agent Developer? An AI Agent Developer builds autonomous AI agents — systems that can plan, reason, use tools, browse the web, write code, and complete multi-step tasks without human intervention. This is the most technically demanding and highest-paid emerging AI role. Think: autonomous research bots, AI-powered business agents, next-gen AI assistants.

EDUCATION PATH	MUST-HAVE SKILLS
BTech CS / AI / ML Strongest academic foundation — most companies prefer this	> Python (advanced): LangChain, LlamaIndex, CrewAI
M.Tech / MS in AI For research-oriented agent roles at top labs	> LLM APIs: OpenAI, Anthropic, Groq, Cohere
BSc CS + Deep Portfolio Can work with exceptional GitHub track record	> Agentic frameworks: AutoGen, CrewAI, LangGraph
IIT / NIT / BITS Grad Strong signal in India — opens top company doors faster	> Vector DBs: Pinecone, Weaviate, ChromaDB
	> Tool use, function calling, memory management
	> RAG pipelines & knowledge base construction
	> Docker, FastAPI, cloud deployment
	> Evaluations, benchmarking & safety testing

CERTIFICATIONS & COURSES

+ DeepLearning.AI — Multi AI Agent Systems with CrewAI	+ Hugging Face — Agents Course (free)
+ DeepLearning.AI — AI Agents in LangGraph	+ AWS ML Specialty Certification
+ LangChain Academy — LangGraph Course (free)	

ENTRY-LEVEL JOB ROLES (Freshers / 0-2 yrs)	Salary	Where to Apply
ML Engineer (Junior / Fresher)	Rs.8 - 15 LPA	Google, Microsoft, Fractal, Sarvam
AI Backend Engineer	Rs.7 - 14 LPA	AI startups, product companies
LLM Integration Developer	Rs.6 - 12 LPA	SaaS startups, consulting firms
AI Research Intern / Associate	Rs.4 - 10 LPA	IIT labs, Google, Microsoft, TCS

Top Companies — India	Top Companies — Global	Senior Salary Range
